PREFACE.

Harrisburg, Pa., March 10, 1903.

The following Bulletin No. 110, is published in compliance with section 14 of an act of Assembly, entitled "An act to prohibit the manufacture and sale of oleomargarine, butterine and other similar products when colored, etc.," approved May 29, 1901, and section 15 of an act, entitled "An act defining boiled or process butter, etc.," approved July 10, 1901, both of which sections are printed in full in preface to Bulletin No. 86, published by this Department, November 1, 1901.

The Commissioner's letter of transmittal contains a brief statement of the contents of the bulletin from which the character of the work being done by the Department for the protection of public health as well as the manufacturers of pure dairy products, may be seen. The work imposed upon the Department by the law-making power of the State for the accomplishment of these ends is one of great magnitude, and in carrying it on, the Department feels the need of the sympathy and cooperation of all good citizens of the Commonwealth.
